

**Evaluation of
[Insert name of program]
Based on 15 Harmful CSE Elements**

HARMFUL CSE ELEMENTS SCORE = [INSERT SCORE]/15

[Insert name of program] contains [insert score] out of 15 of the harmful elements typically found in CSE curricula. Since each of these 15 harmful elements has the potential of causing long-term negative effects on the health and well-being of children, having even one of these elements should be reason enough to disqualify a program from being taught to children. A program containing several of these elements should be banned from use in any school or community setting.

Program Description: [Insert program description]

Planned Parenthood Connections: [Insert Planned Parenthood connections, if any, here]

HARMFUL CSE ELEMENTS	QUOTES AND MATERIAL FROM CSE CURRICULA
<p>1. SEXUALIZES CHILDREN</p> <p><i>Normalizes child sex or desensitizes children to sexual things. May give examples of children having sex or imply many of their peers are sexually active. May glamorize sex, use graphic materials, teach explicit sexual vocabulary, or encourage discussion of sexual experiences, attractions, fantasies or desires.</i></p>	<p>[In each of the boxes in this column, insert direct quotes from the program to show evidence of each of the corresponding elements. Include citation with page number so it is clear where the quote came from.]</p>
<p>2. TEACHES CHILDREN TO CONSENT TO SEX</p> <p><i>May teach children how to negotiate sexual encounters or how to ask for or get “consent” from other children to engage in sexual acts with them.</i></p> <p>Note: “Consent” is often taught under the banner of sexual abuse prevention. While this may be appropriate for adults, children of minor age should never be encouraged to “consent” to sex.</p>	

3. NORMALIZES ANAL AND ORAL SEX

Introduces these high-risk sexual behaviors to children and may normalize them. May omit vital medical facts, such as the extremely high STI rates (i.e., HIV and HPV) and the oral and anal cancer rates associated with these risky sex acts.

4. PROMOTES HOMOSEXUAL/ BISEXUAL BEHAVIOR

Promotes acceptance of and/or exploration of diverse sexual orientations, sometimes in violation of state education laws. May omit vital health information and/or may provide medically inaccurate information about homosexuality or homosexual sex.

5. TEACHES CHILDREN ABOUT SEXUAL PLEASURE

Teaches children about sexual pleasure. May tell them they are entitled to or have a "right" to sexual pleasure or may encourage children to seek out sexual pleasure.

6. PROMOTES SOLO OR MUTUAL MASTURBATION

While masturbation can be part of normal child development, encourages masturbation at young ages, making children more vulnerable to pornography use, sexual addictions or sexual exploitation. May describe masturbation or provide instruction on how to

<p><i>masturbate. May encourage children to engage in mutual masturbation.</i></p>	
<p>7. EROTICIZES CONDOM USE</p> <p><i>May use sexually explicit methods (i.e., penis and vagina models, seductive role play, etc.) to promote condom use to children. May provide medically inaccurate information on condom effectiveness and omit or deemphasize failure rates. May imply that condoms will provide complete protection against pregnancy or STIs.</i></p>	
<p>8. PROMOTES EARLY SEXUAL INDEPENDENCE</p> <p><i>Teaches children they can choose to have sex when they feel they are ready or when they find a trusted partner. Fails to provide data about the well-documented negative consequences of early sexual debut.</i></p>	
<p>9. FAILS TO ESTABLISH ABSTINENCE AS THE GOAL</p> <p><i>Fails to establish abstinence (or a return to abstinence) as the expected standard for all school age children. May mention abstinence only in passing. May teach children that all sexual activity—other than “unprotected” vaginal and oral sex—is acceptable, and even healthy. May present abstinence and “protected” sex as equally good options for children.</i></p>	
<p>10. PROMOTES GENDER</p>	

CONFUSION

Promotes affirmation of and/or exploration of diverse gender identities. May teach children they can change their gender or identify as multiple genders, or may present other unscientific and medically inaccurate gender ideologies. Fails to teach that most gender-confused children resolve it by adulthood and that extreme gender confusion is a mental health disorder (gender dysphoria) that may be helped with therapy.

**11. TEACHES ABORTION/
CONTRACEPTION**

Presents abortion as a safe or positive option, while omitting data on the many potential negative physical and mental health consequences. May teach children they have a right to abortion and refer them to abortion providers. May encourage the use of contraceptives, while failing to present failure rates or side effects.

**12. PROMOTES PEER-TO-PEER
SEX ED/SEXUAL RIGHTS
ADVOCACY**

May train children to teach other children about sex or sexual pleasure, through peer-to-peer initiatives. May recruit children as spokespeople to advocate for controversial sexual rights (including a right to CSE itself) or to promote abortion.

13. UNDERMINES TRADITIONAL VALUES AND BELIEFS

May encourage children to question their parents' beliefs or their cultural or religious values regarding early sex, sexual orientation or gender identity.

14. VIOLATES OR UNDERMINES PARENTAL RIGHTS

May instruct children they have rights to confidentiality and privacy from their parents. May teach children about accessing sexual commodities or services, including abortion, without parental consent. May instruct children not to tell their parents what they are being taught about sex in school.

15. REFERS CHILDREN TO HARMFUL RESOURCES

Refers children to harmful websites, materials or outside entities. May also specifically refer children to Planned Parenthood or their affiliates or partners for their lucrative services or commodities (i.e., sexual counseling, condoms, contraceptives, gender hormones, STI testing and treatment, abortions, etc.)

Please Note: *A conflict of interest exists whenever an entity that profits from sexualizing children is involved in creating or implementing sex education programs.*
