

Protect Nebraska Children

Who We Are:

The Protect Nebraska Children Coalition (PNCC) is a Nebraska-funded and Nebraska-led grassroots organization. We are a coalition of like-minded moms, dads, grandparents, and professionals who are willing to get involved, educate ourselves and others, and make a difference in the quality and trajectory of education in Nebraska.

Our Mission:

PNCC exists to protect the health and innocence of children and the fundamental rights of parents to direct the education, healthcare, and upbringing of their children.

Our History:

In March 2021, the Nebraska Department of Education (NDE) quietly released draft 1 of their proposed state health standards. Watchful citizens quickly recognized the blatant comprehensive sexuality education (CSE) and covert critical race theory (CRT) contained in these standards. Thus, in April of 2021, a small group of concerned parents began to work together to advance parental rights in education and oppose the harmful effects of prioritizing political agendas over true education and a love for learning in our Nebraska classrooms. The Protect Nebraska Children Coalition (PNCCC) was formed to address and oppose these political agendas. Using a website, petition, and social media, a small group of parents began educating and mobilizing concerned citizens across the state. Thousands joined the effort to testify at state board meetings and petition state and local politicians, as well as their local school boards. They employed research, facts, and personal anecdotes to advocate for all Nebraska students and teachers. Finally, in September of 2021, the NDE voted to indefinitely postpone the health standards. PNCC claimed a small victory, but knew our efforts in safeguarding the educational integrity of Nebraska's children had only just begun.

Our Future:

Realizing that real change must also occur at the ballot box, a political action committee was formed: Protect Nebraska Children PAC (PNC PAC).

PNC PAC has allowed citizens to recruit candidates for state and local school board races. The PNC PAC-endorsed candidates are posted on the website pnc-pac.com. All of the PNC PAC-endorsed state board of education candidates have advanced through the primary, as well as 75% of the locally endorsed school board candidates. We look forward to the upcoming general election and would love for you to join us in our efforts!

PNCC continues to provide oversight at state and local school board meetings, and endeavors to keep parents informed of the continuing political threats to Nebraska's educational system.
