

SIGN THE PETITION TO

A Worldwide Call to Protect Children

As concerned citizens, including parents, educators, religious and community leaders, government officials and medical and mental health professionals across the world,

We call upon all teachers, school administrators, and government bodies and policy-makers at the local, state, national, regional and international levels, including United Nations agencies and UN Member States,

To immediately cease promoting, funding or implementing comprehensive sexuality education (CSE) programs.

Under various names, including sexual health, safe sex, reproductive health, or human rights education or other deceptive terms such as safe school initiatives, anti-bullying programs, and inclusive education, CSE programs sexualize children, compromise their health, and rob them of their innocence.

CSE programs also indoctrinate children into radical sexual and gender ideologies and encourage high-risk sexual behaviors and lifestyles.

These programs must be exposed and stopped wherever they are being promoted or implemented.

We demand transparency and that any sex education curricula, program, or lesson materials for children and teens receive prior approval by parents in accordance with the right of parents to guide the education of their children.

Sincerely,
